Help Youth Realize Their American Dream

\$AVING OUR FUTURES

A FINANCIAL RESPONSIBILITY PROGRAM FOR YOUNG PEOPLE

America's Promise Alliance, with the Peter G. Peterson Foundation, has developed a companion curriculum to the documentary film *I.O.U.S.A.* that translates the film's big ideas into concrete activities for middle- and early high-school youth.

Saving Our Futures provides young people with:

- A full understanding of finance terms, including savings, budget and debt
- The connection between personal finance decisions and national public policy and budget issues
- Skills and opportunities for advocacy and activism

"It's timely – *Saving Our Futures* leverages what young people are hearing about the economy"

"It includes 'teachable moments' and real-world activities that resonate with today's youth"

"It meets academic standards for civics and math"

"Using this curriculum is easy – pick and choose the modules you want to use, or use them all"

"It answers the question, 'So, what can WE do about it?' by building toward a youth-driven action plan for real policy change"
